PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of experience building scalable web applications, RESTful APIs, ERP, and financial reconciliation systems. Proficient in Laravel, Vue.js, React.js, MySQL, and SQL Server. At ACI, delivered enterprise platforms across retail (Shwapno financial and BI portals with SAP integration) and automotive (nationwide dealer management systems and digital-warranty platforms for ACI Motors / Yamaha and Royal Enfield); previously built high-traffic e-commerce systems at Daraz (Alibaba Group). Passionate about clean architecture, database design, SAP integrations, and continuous improvement.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, C#

Backend: Laravel, CodeIgniter, Node.js, Django, WordPress

Frontend: Vue.js, React.js, HTML5, CSS3, Bootstrap, jQuery

Databases: MySQL, SQL Server, MongoDB

Cloud & DevOps: AWS, Alibaba Cloud, Docker, Jenkins, Git, CI/CD, Terraform (IaC)

Integration & Other: REST APIs, SAP Integration, JWT Authentication, MVC Architecture, Data Visualization (Chart.js / ApexCharts), Web Scraping

Operating Systems: Linux, Windows, macOS

WORK EXPERIENCE

Senior Software Engineer

Mar 2023 - Present

Advanced Chemical Industries Limited (ACI), Dhaka, Bangladesh

- Developed and maintained enterprise web applications using Laravel, CodeIgniter, and PHP for ACI business units and the Shwapno retail chain.
- Built financial portals for Shwapno (Daily Sales & Collection, VAT Reconciliation, Daily Bank Collection) with automated SAP integration via REST APIs.
- Led development of the core digital platforms for ACI Motors (Yamaha) - the nationwide Dealer Management System (invoices, stock, payments, dealership operations) and YSpark, a paperless bike booking, service, and digital-warranty platform that replaced physical warranty books.
- Delivered a dealer management platform for IFAD Motors (Royal Enfield), extending the DMS architecture to a second nationwide dealer network.
- Built business-intelligence dashboards with real-time KPI, sales-trend, and inventory analytics to support management decision-making across depots and outlets.
- Built RESTful APIs and designed scalable database schemas on MySQL and SQL Server, including stored-procedure optimization for high-volume retail data.
- Developed front-end components with Vue.js for ERP and internal tools, and maintained CodeIgniter legacy systems.
- Participated in R&D and contributed to software architecture design, including offline-first POS architecture for retail outlets.

Software Engineer

May 2021 - Mar 2023

Daraz Bangladesh Limited (Alibaba Group), Dhaka, Bangladesh

- Developed Laravel-based web applications and RESTful APIs used across Bangladesh and four other Daraz ventures.
- Integrated Alibaba Cloud services for deployment, operations, and bulk email delivery.
- Designed relational database schemas and optimized complex queries; worked with MongoDB and Python (Django).
- Built front-end components with React.js and maintained CI/CD workflows using Docker.
- Implemented web scraping and NLP-based translation systems for the seller platform.

Jr. Software Engineer

Nov 2020 - Apr 2021

Aus Asia Online, Dhaka, Bangladesh

- Gathered client requirements and proposed technical solutions for international (Australian) clients.

- Built web applications with WordPress and CodeIgniter; performed PSD-to-HTML and WordPress conversions.
- Customized plugins and delivered SEO-friendly websites for digital marketing.

Teaching Assistant (Internship)

Jun 2020 - Sep 2020

American International University-Bangladesh (AIUB)

- Assisted students with coursework and academic projects; supported faculty with academic tasks.

EDUCATION

Bachelor of Science in Computer Science & Engineering

Jan 2017 - Sep 2020

American International University-Bangladesh (AIUB) | CGPA: 3.86 / 4.00 | Dean's List Award (2 times)

Higher Secondary Certificate (Science)

2014 - 2016

Notre Dame College, Dhaka | GPA: 5.00 / 5.00 (Dhaka Board)

Secondary School Certificate (Science)

2011 - 2014

Thakurgaon Govt. Boys' High School | GPA: 5.00 / 5.00 (Dinajpur Board)

PROJECTS

1. SDMS - Sales & Depot Management System (ACI)

Full ERP system used across all ACI business units for sales, depot, and inventory management - one of ACI's core enterprise platforms. *Tech: Laravel, Vue.js, SQL Server*

2. Shwapno Analytics - Business Intelligence Dashboard (ACI Logistics)

Business-intelligence dashboard for a multi-outlet retail supply chain, delivering real-time KPI visualization, sales-trend analysis, and stock/inventory analytics across depots and outlets to support data-driven management decisions. Implemented role-based access control so decision-makers see analytics scoped to their outlet/depot, plus Excel/PDF report exports for offline review and stock-allocation planning. *Tech: Laravel 8, Vue.js 2, Chart.js / ApexCharts, SQL Server*

3. Daily Sales & Collection (DSC) Portal - Shwapno

Developed the Daily Sales & Collection portal for Shwapno, one of Bangladesh's largest retail chains, enabling daily reconciliation of sales revenue and payment collections with automated SAP accounting integration and voucher generation. *Tech: Laravel, Vue.js, SQL Server, SAP REST APIs*
dev.shwapnocloud.com/dsc

4. VAT Reconciliation System - Shwapno

Designed and developed a VAT reconciliation system integrated with SAP via REST APIs - automating VAT challan breakdown, purchase-order matching, and scheduled daily data sync, with Excel/PDF export capabilities. *Tech: Laravel, Vue.js, JWT Authentication, SQL Server*

5. Daily Bank Collection (DBC) Portal - Shwapno (ACI Logistics)

Internal portal to manage merchant payments, MFS transactions, and credit reconciliation across retail outlets, with JWT-secured APIs and Excel-based financial reporting. *Tech: Laravel, Vue.js, JWT, SQL Server*

6. Dealer Management System - ACI Yamaha

Dealer management platform for ACI Yamaha dealers across Bangladesh, managing invoices, stock, payments, and dealership operations. *Tech: Laravel, Vue.js*
ydms.yamahabd.com

7. IFAD DMS - Dealer Management System (Royal Enfield)

Dealer management system for IFAD Royal Enfield, enabling dealers nationwide to manage invoices, stock, payments, and dealership operations. *Tech: Laravel, Vue.js*
dms.ifadmotors.com

8. YSpark - Digital Bike Solution Platform

Digital platform for bike booking and service management, replacing physical warranty books with a fully paperless experience. Led backend development and database design. *Tech: Laravel, MySQL*

9. Workplan - ACI Pharma

Doctor requisition management and field activity planning system for ACI Pharma. *Tech: CodeIgniter*
workplan.acibd.com

10. ACI Livestock Assistant Monitoring

Web application for ACI Animal Genetics livestock monitoring. *Tech: Laravel, Vue.js*
app.acibd.com/la_monitoring

11. ACI E-Shrimp

Web application for ACI farmers to record shrimp farming data and export it to buyers. *Tech: Laravel, Vue.js*
app.acibd.com/aci_e_shrimp

12. Daraz Packaging Material System v2

Internal packaging requisition system built for Daraz, used across Bangladesh and four other countries. *Tech: Laravel*
pm.daraz.com.bd

13. Daraz Attribute Bulk Translation & Transliteration

Python-based NLP system for the Daraz BD seller site, enabling bulk translation and transliteration of product attributes. *Tech: Python, NLP*

14. Mailer System

Bulk email platform sending campaigns through Alibaba Cloud REST APIs. *Tech: Laravel, Alibaba Cloud*
mailer.darazbd.net

15. Project Management System

Web application for managing multi-phase projects and activities with task-manager role assignments. *Tech: Laravel*
proquisition.darazbd.net

16. Daraz Seller Referral & Digital Goods Tracker

Seller referral and digital goods tracking platform. *Tech: Laravel, Bootstrap*
referral.darazbd.net

17. CRUD Generator - Laravel Package

Custom Laravel package for CRUD generation, published on Packagist. *Tech: PHP, Laravel*
packagist.org/packages/crudgenerator/crudoperation

18. Login Information - Laravel Package

Custom Laravel package for storing login information, published on Packagist. *Tech: PHP, Laravel*
packagist.org/packages/zahid566/logininfo

19. University Portal System

Desktop application for university portal management. *Tech: C#*
github.com/zahidhasan566/C-sharp-portal-management-system-desktop

20. WordPress & CMS Projects

Multiple websites for Australian businesses including Locale, Metrokebab Restaurant, Oldetudor Hotel & Restaurant, Phoenix Pergolas, and several NDIS sites. *Tech: WordPress, PHP*

ACHIEVEMENTS

Dean's List Award - American International University-Bangladesh (2 times)

INTERESTS

Artificial Intelligence | Machine Learning | DevOps
